

VITAL STATISTICS COPIED FROM THE MAINE FARMER

1833 — 1852

VOLUME I. MARRIAGES

FOREWORD

This volume is the first of a series containing notices of marriages and deaths copied from the farm newspaper, "The Maine Farmer." Entries printed in the newspaper were gleaned from the whole State but were most numerous from the Kennebec Valley. Both professional and amateur genealogists should find the series valuable, not only for the information that they contain, but for the clues that they give as to where further information may be found.

The "Maine Farmer" was established in 1833 by Dr. Ezekiel Holmes and was issued regularly for nearly a hundred years. The paper was published weekly and was devoted to the interests of agriculture and the mechanic arts. The first number was dated January 21, 1833 and was called the "Kennebec Farmer." The name was changed to the "Maine Farmer" on March 18 of the same year.

This volume contains marriages listed alphabetically from Abbot to Patten inclusive, for the years 1833 to 1850, also inclusive, except for the volume for 1848, the issues from July 4, 1840, to Dec. 5, 1840, inclusive, which are not in the Library of the University of Maine, and the issues for August 6, 1842, and September 9, 1843, which are not in the files of the University Library or of the State Library at Augusta. Included also are marriages from July 1, 1852, to September 30, 1852.

The "Maine Farmer" was moved from place to place several times. It was published at Winthrop from 1833 to 1837, at Hallowell from 1837 to 1838, at Winthrop again from 1838 to the end of 1843, and at Augusta from January, 1844, to the end of the period. Many entries begin "in this town," and in such instances, because of the wanderings of the paper, the name of the town is added in parentheses. Otherwise the entries have been copied exactly, except that obvious typographical errors have sometimes been corrected, and that

150559

accounts of gifts of wedding cake to the editor and similar references have been omitted.

Most entries in the paper did not include the date of marriage. The date at the end of each item is the date of the issue of the paper in which the item appeared. Notices were sometimes repeated. When they were exactly alike, the second notice has been omitted. When they differed even slightly, both are included. Care has been taken to avoid typographical errors, but doubtless some have crept in.

Three students at the University of Maine have done the work — Oscar R. Martin, '40; Carlton B. Payson, '41; and J. Herbert Roberts, '42. Special recognition is due them for their careful and painstaking work.

The task was financed by the National Youth Administration, under the local direction of Philip J. Brockway. Special appreciation is due to the N.Y.A. authorities, and Dean Arthur L. Deering of the College of Agriculture, University of Maine, for their interest and support, without which the work could not even have been attempted. Recognition is also due to Mr. Louis T. Ibbotson, librarian of the University of Maine, and Miss Theresa R. ~~Stewart~~<sup>Stuart</sup>, librarian of the Maine State Library, for their permission to copy the records from the volumes of the "Maine Farmer" in their possession and for their kindly interest in the work.

This volume was prepared under the supervision of Clarence A. Day, Extension Editor, Maine Agricultural Extension Service.

# MARRIAGES REPORTED IN THE NEWSPAPER,

MAINE FARMER, 1833-50

## A
